

Announcement to all Level VI +

### Level VI Conference 2012

After many years of maintaining the audit fees at \$100 for the Level VI conference we are changing them to be more in alignment with audit fees for other courses offered by Training in Power Academy, and also for the length of days and evening instruction.

*Your presence and contribution is most valued at the Level VI conference and this is also an opportunity for you learn and grow. As an acknowledgement for all that Faye does to provide this amazing construct and the energetics for everyone you are encouraged to greet this change to audit fees as a token of recognition for her work.*

As you know the cost to audit your own level is different from what other level auditors pay. When auditing your own level there is much more happening both energetically and intellectually for you. When auditing a younger level, although the value is still high the auditor brings more in the way of assisting the students and the teacher to make the course power and successful.

While designing this new audit fee structure we also wanted to acknowledge our faculty, so for those who are active faculty there is a reduced level VI audit fee. (If you are unsure of the qualifications for active faculty check with Training in Power Academy in your country if you are not sure).
