## 2. How We Get Data About You

We use tools like cookies, web beacons, analytics services, and (perhaps in the future) advertising providers to gather the data listed above. Some of these tools offer you the ability to opt out of data collection.

### 2.1 Cookies and Data Collection Tools

As detailed in our Cookie Policy below, Training in Power Academy and service providers acting on our behalf (like Google Analytics and third party advertisers) use server log files and automated data collection tools like cookies, tags, scripts, customized links, device or browser fingerprints, and web beacons (together, “**Data Collection Tools**”) when you access and use the Services. These Data Collection Tools automatically track and collect certain System Data and Usage Data (as detailed in Section 1) when you use the Services. In some cases, we tie data gathered through those Data Collection Tools to other data that we collect as described in this Privacy Policy.

We use cookies (small files that websites send to your device to uniquely identify your browser or device or to store data in your browser) for things like analyzing your use of the Services, personalizing your experience, making it easier to log into the Services, and recognizing you when you return. We use web beacons (small objects that allow us to measure the actions of visitors and users using the Services) for things like identifying whether a page was visited, identifying whether an email was opened, and advertising more efficiently by excluding current users from certain promotional messages or identifying the source of a new mobile app download.

**Training in Power Academy** uses the following types of cookies:

- Preferences: cookies that remember data about your browser and preferred settings that affect the appearance and behavior of the Services (like your preferred language).
- Security: cookies used to enable you to log in and access the Services; protect against fraudulent logins; and help detect and prevent abuse or unauthorized use of your account.
- Functional: cookies that store functional settings (like the volume level you set for video playback).
- Session State: cookies that track your interactions with the Services to help us improve the Services and your browsing experience, remember your login details, and enable processing of your course purchases. These are strictly necessary for the Services to work properly, so if you disable them then certain functionalities will break or be unavailable.

You may set your web browser to alert you about attempts to place cookies on your computer, limit the types of cookies you allow, or refuse cookies altogether. If you do, you may not be able to use some or all features of the Services, and your experience may be different or less functional.

Some of the third-party partners who provide certain features on our site may also use Local Storage Objects (also known as flash cookies or LSOs) to collect and store data.

## 2.2 Analytics

We use third-party browser and mobile analytics services like Google Analytics. These services use Data Collection Tools to help us analyze your use of the Services, including information like the third-party website you arrive from, how often you visit, events within the Services, usage and performance data, and where the application was downloaded from. We use this data to improve the Services, better understand how the Services perform on different devices, and provide information that may be of interest to you.

## 2.3 Online Advertising

We use third-party advertising services like Taboola, Facebook, Google's ad services, and other ad networks and ad servers to deliver advertising about our Services on other websites and applications you use. The ads may be based on things we know about you, like your Usage Data and System Data (as detailed in Section 1), and things that these ad service providers know about you based on their tracking data. The ads can be based on your recent activity or activity over time and across other sites and services and may be tailored to your interests.

Depending on the types of advertising services we use, they may place cookies or other tracking technologies on your computer, phone, or other device to collect data about your use of our Services and may access those tracking technologies in order to serve these tailored advertisements to you. To help deliver tailored advertising, we may provide these service providers with a hashed, anonymized version of your email address (in a non-human-readable form) and content that you share publicly on the Services.

When using mobile applications, you may also receive tailored in-app advertisements. Apple iOS, Android OS, and Microsoft Windows each provide their own instructions on how to control in-app tailored advertising. For other devices and operating systems, you should review your privacy settings or contact your platform operator.
